

FORUM FOR ADVANCED BIOMEDICAL COMPUTATION

Join us for an in-depth discussion of computational methods applied to the understanding, diagnosis and treatment of human disease.

MONDAY, SEPTEMBER 24, 2018, 4:00PM-5:30 PM

**Ramzi Cotran Conference Center
Amory 3, 75 Francis Street, Brigham and Women's Hospital**

COMPUTATIONAL IMMUNOLOGY: Therapeutic antibody design to viral repertoire

David Gifford, PhD
Professor of Computer Science
and Biological Engineering, MIT

Michael Birnbaum, PhD
Assistant Professor of
Biological Engineering, MIT

Michael Mina, MD, PhD
Clinical Fellow in Pathology, BWH

Light refreshments will be served

Sponsored by Computational Pathology, Department of Pathology and Precision Medicine, BWH
